ACTIVATION #3: COCOON OF LIGHT #1

Time: 11:28

This is the first of three activations that teach and use the Cocoon Of Light healing technique. Participants are in groups of three, with a Receiver lying down on the mat, and two Givers, one at the head and one at the feet, of the Receiver. This technique:

- Merges the magnetic and electromagnetic poles into a unified whole
- Givers:
 - Allow self to become clear and open channels of Angelic Light Beings
 - Use their heart and hands as a conduit of their energies
- Receivers:
 - Relax and allow the energy into their body/etheric bodies
 - Receive non-touch spinal adjustment, if needed

Note that all participants can receive all activation benefits regardless of the role they assume in a given activation process. Remember, this is the Quantum, not linear thinking.

ACTIVATION #4: COCOON OF LIGHT #2

Time: 24:00

This Cocoon Of Light activation brings the technique to a different level. It includes:

- Angels of Earth rejoice that you have come to receive at this level, connecting with your Mother Earth in a way you have not yet done in this lifetime
- Merging of the Lemurian and Atlantean energies, which are also associated with Sedona and Asheville, respectively
- Upgrade of the chakra system, 144-count
- Deepening of consciousness and acceleration of spiritual development
- Givers:
 - Open their heart space and feel deeper the presence of the Angelic Light Beings working through them
 - Hold sacred space in a pyramid of Light and
 - Allow the energies to continue to flow through them beyond this activation
- Receivers:
 - Fall into a profound default state of Allowing
 - Experience healing mini-waves of Light adjusting the spinal column
 - Journey and merge deep within Mother Earth's womb to release birth trauma, receive initiation into the heart of Earth, and experience a rebirth in consciousness
 - Call on, communicate with nature and animals to give feedback on what happened/is happening during the activation, and over time

ACTIVATION #5: COCOON OF LIGHT #3

Time: 20:53

The third session of the Cocoon Of Light includes these experiences:

- Calling in Babaji to receive teachings of his rightful understanding of the body in its original Divine matrix, which is meant to last indefinitely
- Allow the reunification of divine masculine and feminine, left/right hemispheres of the brain, left/right sides of the body, heart and mind, hands and feet, atlas and sacral vertebrae

- Travel out of body to Source where the Solar Plexus is gently worked on to restore your Solar matrix
- Recalibrate along with New Earth into the timeless zone of no thought, the Void, and experience the Essence
- Allow gentle and natural integration of the three levels of the Cocoon Of Light healings

ACTIVATION #6: RECALIBRATION: TIME TO AWAKEN

Time: 33:49

This is an incredibly powerful activation that wraps up the second day of retreat. You are guided for adjustment and gentle integration of all that has happened so far, and awaken in the morning into a new life. Special helpers who come to assist include:

- The Council of Fourteen, who brings in powerful “new” energies
- Saint Germain and the Violet Ray assist transformational aspects
- Angels who specialize in supporting, healing us during the earth plane existence
- Your specific Guardian Angel, and others.

During the activation you:

- Align with Quantum energies that have been passing through Earth's orbit for 20+ years that immerse us, potentiate us, into the possibilities of New Earth dimension
- Align with planetary and star system energies that relate to your life purpose
- Heal blind spot(s) through all timelines – past, present, future, parallel, alternative
- Very deep access/healing of your unconscious physical and spiritual blind spot(s)
- Retrieve parts of you that shut down and left; soul fragment retrieval

You **AWAKEN**:

- From a very long unconscious dream, and realize – at a different level – that you truly are a divine being having an earth experience
- Into clarity
- Your heart center toward its full capacity, and
- Reclaim your power to **STAY AWAKE**
- Your inner knowingness that you are loved and supported 24/7 and there is nothing to fear as you **AWAKEN INTO THE NOW**

ACTIVATION #7: HEALING MOTHER/FATHER RELATIONSHIPS

Time: 47:12

The main focus of Activation 7 is to heal your relationships with your Father and Mother in this and/or past lives, and in turn, heal your archetypal parent relationship. The importance of this healing cannot be understated since your parent relationships represent the lens through which all other relationships are developed. You are guided to allow the harmonizing energies you receive to continue to run in the background, beyond the activation itself, allowing them to fully download and come into your awareness in divine right timing. In this healing, Mary Magdalene comes forward as the Divine Feminine to assist, along with other helpers, as you:

- At the Soul level, complete any incomplete communication with each parent, regardless of their current plane of existence
- Remember the Soul Agreement you made when you came in and chose them as your parent to fulfill the spiritual goals you set forth for yourself in this life
- Are empowered to release blame, dysfunctional attachments, and energetic cords that hinder your well-being and full expression of self

Healing the Father relationship:

- Heals your relationship with the male principle
- Frees up your energy for the right use of will, the power of will, your power of intention, and

Healing the Mother relationship:

- Heals your relationship with the female principle
- Dissolves stuck emotions from in utero, birth, and early childhood traumas, restoring harmony to your original 8 cells of creation

This powerful activation continues the physical and emotional healing, including:

- (Re-)Activate the brain's innate healing power, reset the nervous system, and activate the immune and lymphatic systems
- Restore the spiral flow of energy along the spine, healing distortions and imbalances that block the flow of kundalini
- Allow the base chakra to heal survival fears and release fears of the unknown
- Release long-standing stagnant energy that built up in the Solar Plexus
- Healing of the psoas muscle, a very deep core muscle that is intimately tied to our structural, movement, and emotional responses to and in life

ACTIVATION #8: MIND-BRAIN RECALIBRATION

Time: 31:13

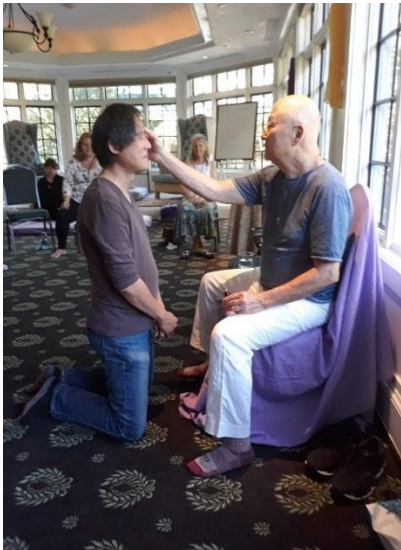

Activation 8 is a recalibration and healing of the brain and mind. Kenji guides you into a state of deep relaxation and calm to open and receive the blessings. You then move into a state of exponentially enhanced awareness, heightening your ability to encompass all possibilities, and new levels of knowledge and wisdom. You experience:

- Sacred geometry weaving new circuitry across the hemispheric divide
- Integration of left and right hemispheres into One Brain
- Integration of the split mind into One Mind
- Brain processes understood through analogy of defragmenting your computer, deleting corrupt or unnecessary files, etc., for the optimization of capacities

Then, specific Archangels are brought in for the next healing technique to be learned. After invoking their presence, there is a six-minute period of silence as the Archangels prepare your body and subtle energies to receive the full benefits. In this process, you will:

- Invite all of your Selves to come and be present to receive in the healing
- Release any unconscious attachment to your blind spot (of being unconscious)
- Move into awareness where you can fully see what remains of your blind spot
- At the base of the occiput, in your subtle body, extract your awareness from the space/time matrix, the matrix of suffering
- Access a portal at the base of the skull for a grand reconnection to Source

ACTIVATION #9: KINETICS #1

Time: 23:27

This is the first of three sessions of the Kinetics healing technique. It is a scooping technique for deep emotional purging that primarily works on the magnetic body, where emotional stress and tension can be held. The recipient is informed prior to the session that the intent is not to relive, but to help release suppressed emotional energy. The recipient lies down on the mat and one or two facilitators sit adjacent to the recipient at the side(s) of their torso. In the process:

- Facilitators:
 - Align with an Archangel who will move through their arms and hands
 - Learn to scan the body for completeness, detect and seal any energy leaks
 - Learn to read body signals, like breath, rapid eye movement, kriyas
 - Are guided how to not take on others' energy and how to release if do
- Recipients:
 - Are guided through resistance that may come up
 - May see flashbacks, experience temperature changes, dizziness, nausea, sweating, or feel an unexpected pain arise that dissipates as quickly
 - Are encouraged to stay present in the body, yet it is not uncommon for them to “check out,” or to travel to deep space or to inner earth

The Kinetics technique is very gentle healing method that works well:

- For base, second, and third chakra healing; to release cords; heal trauma, etc.
- With long-distance or over-the-phone healing
- From the very young to those about to transition

ACTIVATION #10: KINETICS #2

Time: 16:37

Round 2 of the Kinetics technique includes additional teaching and reminders:

- Kenji guides us to telepathically communicate with the recipient to give the body permission to release the energy
- In this session, an Overseeing Archangel also enters and works from above the mat.
- To ensure you don't take on any recipient's energies, go into meditation after completing the scooping, and run the Violet Light through your field.
- If you need balance after a session, run Green Light down your spine.
- Learn what it means and what to do when you perceive energy that is hard, dark, red, or hot, or that the energy is just not moving.

ACTIVATION #11: KINETICS #3

Time: 16:32

This is the third Kinetics session from which we learn and experience the following:

- An ideal session length is 44 minutes; a mini-session can be 15-20 minutes.
- You will know when a session is done because the energy will simply stop and the Archangel will back out of your body/field.
- There is no need to ask a client about previous injuries; it will likely come up organically in the post-session consult.

- Neither the facilitator nor client needs to know what is being released. Simply open and be in a state of allowing. Remember, the Archangel is doing the doing.
- Remember that any touch during a session is Angel Touch, a physical blessing, and the power of Grace in your hands.
- When there are two facilitators, only one scoops at a time while the other is in a meditative state, continuing to hold sacred space.
- Rule of thumb – if you do not know what to do, go into pause mode, ask the Archangel for guidance, then wait until you get direction.
- To close a session, go in a meditative state, give gratitude and thanks, and ask if they have any guidance for you to share with the client. Whisper to the client to take several deep breaths, and know that this initiates their integration of the work.
- There is rapid embodiment of this healing, yet complete integration may continue for hours, days, and even years.

ACTIVATION #12: TRANSFORMATIONAL BUTTERFLY ACTIVATION

Time: 48:45

This uniquely transformational activation is extremely powerful! Plan your schedule accordingly for when you choose to do it. The Spirit of the Butterfly Kingdom joins as a catalyst for transformation, in the specific symbolic form of the Monarch Butterfly. Prior to journeying, participants were anointed with an elixir of Monarch Butterfly Essence, prepared by one of the retreatants*, as gifted to her by the Monarch Butterfly shortly before travelling to the retreat.

(*Essence prepared and provided by Dawn Butler: ondariessence@gmail.com)

Here are some of the special helpers present for this session:

- Arcturian High Council to bring forth very precise healing frequencies
- Pleiadean High Council for wisdom
- Hathors from the DAL Universe, the Christ family, the Archangels, and the Angelics who specialize in transformational experience
- Venusian energies of the Kumara lineage, and specifically Sanat Kumara and Lady Venus, to support each individual's transformation
- Gaia, for her presence and loving support of your body, the Nature Kingdom, and your animal allies

Position your physical body in the fetal position, covered entirely by a blanket, and be guided to time travel out of body to a higher dimensional place that will initiate your highest experience. Your subtle bodies line up in the fetal position as well, so that all aspects of you can experience this transformation. Enter a dark cave and travel deeper and deeper into inner space. Now, **feel into** the cave to find your perfect birthing place. Use your heart and telepathy to sense and allow the Archetype Monarch Butterfly to assist you in finding the perfect spot in the **complete darkness and total silence**. Here, you cocoon in the womb of the Earth Mother who prepares to birth you into a new you and a new life.

You literally feel a reconstruction of your spiritual anatomy, as you drop deeper and deeper into the silence and all that is possible. At some point you are called to notice a very small flame in the center of your soul. This is the Flame of Resurrection and Rebirth. Little by little it expands and becomes more intense, continuing to do so according to your ability to receive. This Flame activates your **remembrance of who you are going to be** at the end of this activation, once the Flame moves through all 144,000 levels of your Beingness.

Your Butterfly shows you how to emerge from the cocoon into your new body of expression in the Cosmos. Your Higher Self instructs you on how to allow for gentle and gradual awakening. The effects of this very deep initiation last years into the future, including future lives. As with each major initiation, there also comes new Guides and Mentors and a new curriculum, all in divine right timing. More information will download over time. This is a new aspect of you has never been on this planet.

ACTIVATION #13: NEW EARTH/NEW SELF INTEGRATION

Time: 30:54

The focus of Activation 13 is integration. It is conducted after a full day of travel and walking in nature to many waterfalls and mountain vistas to facilitate thorough grounding and physical integration of all energetics and shifts gained (continuing to be gained) in the retreat to this point. Use your intuition when doing these activations after the fact as to whether a similar type of physical activity could enhance your integration process.

Integration themes include:

- Creating a variable within your vertical energy field to naturally align to Earth's new magnetic pole as it shifts
- Creating a new channel of grounding through your spine and the original 8 cells, granting renewed harmony among those 8 cells and within the whole of you
- Open to being a clear and perfect channel for self and others
- Work with Archangel Zedkiel and the Violet Light to uplift and clear remaining hidden shadow aspects
- Using your Soul Self to scan the body to detect and invoke deeper clearing of blocks in both the subtle and gross bodies
- Continuing ongoing integration of the very significant Butterfly Activation

Also received in this activation:

- Help for you to freely express what you see and how you feel, in balance
- Breathing in the vibrations of Harmony and Joy and Courage
- Money Angels work with you for emotional support and to manifest in divine balance all the prosperity you need in this lifetime (e.g., physical plane, emotional, psychological)
- Kenji's always relevant and helpful reminders:
 - Breathing is the easiest way to integrate!
 - That you always have Great Support!
 - Drink plenty of water after activations!

ACTIVATION 14: GROUP OM

Time: 36:29

The group chants the OM 108 times, a sacred number in Hindu tradition. Set your intentions and open to the flow. While listening to this organic rendering of the moment, you may experience a range of feelings – from belly laughing, to judgment, sadness, and zoning into the flow. Simply allow whatever comes up to be. Enjoy the journey!

ACTIVATION #15: RECALIBRATION OF THE CHAKRA SYSTEM

Time: 1:05:31

The Chakra System receives deep healing in relation to major archetypes and imprinted limiting beliefs and messages that affected you and humanity for eons of time. The journey begins in your Earth Star and feet chakras, and progresses through the Base chakra, Solar Plexus, Heart, Throat, Hand chakras, Third Eye, Crown, and Soul Star chakras.

A significant portion of this hour-long activation is devoted to the Base chakra to promote foundational stability and strength for the whole being. A heavy-duty team of helpers is assembled for assistance, and each person invokes the most appropriate geometric pattern to facilitate their own journey. You are guided to download solutions and remedies that will allow all healings can be received in your body and emotions as you are ready.

Here are a few examples of healings, and limiting beliefs and messages that are released:

- False teachings about money, sex, power, and use of will
- Church, spiritual, or cult leader mis-teachings about sin, judgment, guilt, shame
- Imprinted statements of “You will never ...” and its companion, “I can’t ...”

- Pain from times you felt you had to make your Spirit small to fit in, be invisible in order to survive, shut down your voice, be seen but not heard
- Any life you felt the victim of any type of power struggle (emotional, psychological, family, spiritual, economic, cultural, political, land, status, job security, etc.)
- Beliefs that restrict your ability to completely manifest creativity (life goals, career, love relationships, visions, special projects, etc.)
- Being abandoned, shunned, outcast, condemned, punished, imprisoned, killed because you were a seer, prophet, shaman, healer, magician, white witch, wise person, way shower

ACTIVATION #16: RECALIBRATION: EMBODIMENT OF LIGHT

Time: 1:02:07

Activation 16 is the perfect way to wrap up this life-changing event. Kenji sets you up for ongoing gentle integration and seamless translation of the Light information into practical daily living. As you return home, **you are truly a greater embodiment of the Light.**

Receive alignments that allow your body to express New Earth consciousness:

- Allow your RNA to code/recode into New Earth consciousness expression
- New consciousness harmonization with your original 8 cells and spinal column
- Infuse each organ and system with Supreme Light embodiment
- Activate the body's innate ability to live in a healthy state indefinitely

View all versions of you – past, present, future, parallel, alternative – in complete harmony and synchronization with ease in this new-paradigm life. You receive enhanced access to all levels of the Christ grid, and your Akashic records are opened and made available to you.

This transformative immersion into healing and **all that is possible** will remain one of the major evolutionary steps you chose for this life. You will **create the feeling state** of how you wish to experience reality, and:

- Receive visions, miracles, revelations, empowerment
- Enter the silence and receive the final blessings from your non-physical helpers who have been working with you throughout the week
- Acknowledge your new Guides who have entered to mentor you through this new evolutionary stage, and be with you until your next major evolutionary step

*Kenji states, "Remember the archetype of the Monarch Butterfly.
Know you are blessed and loved always. Namaste."*
